FOSTER TERMS AND CONDIIONS

SaFeMEOW holds all rights and ownership of any animals placed in foster care through our rescue, and holds the right to make all decisions regarding animals in foster care

SaFeMEOW retains the right to recall/request return of any foster animal in your care, at any time.

Only authorized/approved fosters may care for foster animals, they are not to be left in the care of anyone else. If you are going away or unable to provide the needed care to your foster animal/s you must notify SaFeMEOW immediately

Animals belonging to foster homes must have Rabies and FVRCP Vaccine. It would be recommended that cats have the Feline Leukemia Vaccine, Internal and External Parasite treatment, FIV/FelV Test.

You agree to provide proof of vaccination (or titres, done by your veterinarian, to quantify level of immunity your animal has) to SaFeMEOW upon request. It is your responsibility to ensure your animals vaccines are current and up to date.

It is required that you separate foster animals and owned animals for a minimum 2 week period upon arrival. SaFeMEOW will not be held responsible if illness or parasites are contracted by owned animals. Because of the nature of rescue work, SaFeMEOW cannot guarantee that animals are free of communicable diseases. SaFeMEOW is not responsible for any veterinary costs incurred for owned animals

If a foster home would like to adopt their foster animal they must notify SaFeMEOW asap. SaFeMEOW reserves the right to make the final adoption approval and arrangements, all regular adoption procedures will apply.

All adoption inquiries to the foster home will be directed to SaFeMEOW

Animals are to be kept strictly indoors

You will not cosmetically alter the foster animal in any way.

All veterinary care to SaFeMEOW animals is provided by Graham Animal Hospital. SaFeMEOW is run by a Registered Veterinary Technician in addition to working closely with our veterinarian Dr. Lukacs. We ensure all animals are examined and clear of clinical illness prior to being placed into

foster homes*

SaFeMEOW does not routinely test cats for FIV/FeLV due to the associated costs (aprox. \$30), upon request we can look into testing foster cats.

*A foster home may foster an ill animal and this would be disclosed prior to arranging the foster

SaFeMEOW will provide all medical care and advice as needed to foster homes. SaFe MEOW will provide vaccines and deworming, in addition to any needed medial care to the foster animal. A safe place, bed, toys, food and clean litter are the responsibility of the foster home.

Directions in the "SaFe MEOW Kitten Guide" or the "SaFe MEOW Cat Guide" are to be followed at all times

As a foster home you will be fully responsible for the safety and wellbeing of the foster animal. You agree to provide a safe, loving and clean environment. There will be adequate food, water and clean litter.

Animals may remain in a foster home from a few days to several months, each case is unique

You will notify SaFeMEOW should you foster animals through another rescue.

All unauthorized expenses (medical, food, toys... etc...) will be at the expense of the foster home.

SaFeMEOW is not responsible for any foster expenses not agreed upon with a Manager in advance.

THIS DOCUMENT WILL BE REVIVED YEARLY WITH FOSTER HOMES.

I _____ (print name) have read, understood and agree to the terms and conditions above.
